## **2017 – September - October – November – December – 2017**

As the hustle & bustle of summer begins to wind down and we enter into the “Dog Days of Summer” with hopefully a glorious Fall, we find ourselves looking forward to slowing down. That is a real “catch 22” for quilt shop owners! We are constantly strategizing, plotting, creating... trying to keep up with the trends, discovering what they are and implementing them. We don't have a crystal ball so we learned a long time ago to shake it off and move on if a project/plan doesn't work. We have a lot of help AND competition with the internet now a days – (Oh how things have changed in 21 years!). For the most part, we are able to get products into your hands quicker and LOVE that you give us that opportunity. If you see it on the internet, know that we can get it! We really appreciate the chance to serve YOU!

Brick and mortar stores are all having challenges these days keeping their doors open. We urge you to keep in mind some great support opportunities in all of our communities this year – Black Friday, Small Business Saturday, and Cyber Monday. We are planning some fun activities with the hope you will keep all of our small communities in the fore front of your shopping plans.

Did you know:

- ❖ Small businesses give back MORE to our communities.
- ❖ Small businesses provide better customer service.
- ❖ Small businesses provide greater access to product diversity

Small businesses have just as much access to vendors that big box businesses do. If a small business doesn't have the products – ASK THEM! They're also much more receptive & willing to order them for you.

- ❖ Small businesses create a sense of community.
- ❖ You're going to feel good!

For 21 years now we have been very fortunate and happy that we have had the opportunity to “Grow” our business in little Ol' Merrill. Every day we thank you, our customers who walk in our doors for the occasion to serve you. You are very important to us and our community. We strive to put you first when you are standing at our counters or taking a class. Our service to you comes before the phone calls, the computer and our back room duties. We try hard to help you solve problems, learn new techniques and find just the right items for your projects.

We hope you need us as much as we need you!!

*Thanks for 21 Amazing Years!!*

*Robin & Diane*
